We return to the mountains of the Sierra de Tramuntana, close to Soller, to cross one of the more popular gorges called Na Mora. This gorge is not very long but extremely beautiful. It features everything one might expect to find in a gorge: technical down-climbing, jumps and rapowors, rappelling, etc.

Its own very special characteristic is its exit which gives directly onto the sea, where a fast motor launch will be waiting to take us back along the pretty coast to the Port of Soller.
